

Key Investor Information

This document provides you with key investor information about the Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

Castellain Emerging Market Credit Fund (the “Fund”)

A sub-fund of Castellain ICAV. The Manager is Waystone Management Company (IE) Limited (the “Manager”).

Class D GBP (ISIN: IE000VTUYS47)

Objectives and Investment Policy

The investment objective of the Fund is to achieve long-term capital appreciation.

The Fund will seek to achieve this primarily by investing on a long and/or short basis in fixed income products including debt issued by both government and corporate bodies, with the core focus being on sovereign and quasi-sovereign emerging market issuers. Such issuers may have a credit rating above or below investment grade.

The Fund may invest indirectly in the fixed income markets through financial derivatives (“FDI”). Derivatives used by the Fund may include futures, options and swaps (including credit default swaps) and may be used for investment purposes or hedging purposes. Forward foreign exchange contracts may also be used for hedging against the risk of changes in currency exchange rates. The Fund may also invest indirectly in major equity indices for hedging purposes.

Under normal market conditions, it is expected that at any given time the maximum value of long positions of the Fund shall not exceed 200% of the Net Asset Value of the Fund and it is

expected that at any given time the maximum of the absolute values of the short positions of the Fund shall not exceed 100% of the Net Asset Value of the Fund.

The objectives and policies of the Fund are not constrained by reference to any benchmark index and the Investment Manager has discretion in its choices of investments. The Fund is actively managed, and the iShares J.P. Morgan USD Emerging Markets Bond ETF (EMB) details are provided for comparative purposes only.

Where the Investment Manager considers it appropriate, the Fund may invest up to 100% of its assets in cash and cash equivalents.

You can buy and sell shares in the Fund on any day provided that it is not an Irish, UK or US public holiday.

Your shares do not pay income, but instead the Fund reinvests such income to grow your capital.

Please read the Prospectus for more information about the Fund. It is available at www.cascap.co.uk

Risk and Reward Profile

Lower risk ← Higher risk
Typically lower rewards ← Typically higher rewards

1	2	3	4	5	6	7
---	---	---	---	---	---	---

The risk category for this Fund is set at 6. It is calculated based on the volatility of the returns of the anticipated asset mix within the Fund and the volatility that is consistent with the strategy of the Fund. Historical data may not be a reliable indication of the future risk profile of the Fund. The risk and reward category may shift over time and is not a target or a guarantee. The lowest category (i.e. category 1) does not mean a risk-free investment.

Investment in the Fund carries with it a degree of risk including, but not limited to, the risks described in the “Investment Risks” section of the Prospectus. These investment risks are not purported to be exhaustive and potential investors should review the Prospectus and the Supplement carefully and consult with

their professional advisers before making an application for Shares. There can be no assurance that the Fund will achieve its investment objective.

The following are additional risks which are materially relevant to the Fund which may not be adequately captured by the risk and reward indicator:

- The Fund invests in emerging market credit products and the value of these investments can go down as well as up due to many factors, including changes in the financial situation of the issuer and changes in sentiment toward emerging market investments.
- In certain market conditions some assets in the Fund may be less liquid and therefore more difficult to sell at their true value or in a timely manner.
- The Fund may use FDI for investment purposes, which may result in the Fund being leveraged and may result in a higher level of volatility in the value of the Fund.

Charges for this Fund

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest

Entry Charge	None
Exit Charge	None

Charges taken from the Fund over the year

Ongoing Charges	2.22%
-----------------	-------

Charges taken from the Fund under certain specific conditions

Performance Fee	2.46%
-----------------	-------

Calculation: 15% above high watermark, non-equalisation.

The entry and exit charges shown are maximum figures. In some cases you might pay less. Please refer to your financial advisor or the Distributor for actual entry and exit charges. No switching or conversion charges will apply.

The ongoing charges figure for the year ended 31 December 2024 is based on actual charges from 1 January 2024 to 31 December 2024. The Fund's annual report for each financial year will include detail on the exact charges made. These may vary from year to year. The ongoing charges figure excludes portfolio transaction costs and performance fees.

More detailed charges information may be found in the "Fees and Expenses" section of the Supplement.

Past Performance

The Fund launched in Ireland on 1 October 2021 but the Class D shares launched in February 2022.

The past performance takes account of all charges and costs and is calculated in USD.

Please be aware that past performance is not a reliable indicator of future results.
